Vitrified Compact Surfaces

# Forward thinking, environmentally conscious design

Zenith Surfaces emerges as a paradigm shift in surface materials, leveraging a ground-breaking Vitriified Compact Surface (VCS) technology. An advanced manufacturing process helping Zenith Surfaces transcend conventional limitations, boasting exceptional strength, durability, scratch resistance, and heat resistance.

## Containing up to 89% recycled materials

Using a unique recycled glass make-up and featuring up to 89% recycled materials, Zenith Surfaces is transforming design with a purpose. Helping to minimise environmental impact and promoting resource conservation at the same time.

## Offering exceptional performance and strength

Zenith Surfaces exhibits excellent compressive and flexural strength, exceeding granite and marble benchmarks. Its resistance to scratches and stains simplifies maintenance, while its impressive thermal resistance renders it highly resistant to everyday kitchen heat.

### Spill Resistant

Thanks to high spill resistance technology, cleaning up those small marks and stubborn spots is a breeze with Zenith Surfaces.

### Stain Resistant

A near care-free surface that doesn't require any sealing or ongoing treatments making it ideal for any internal application.

### Environmentally Friendly

With recycled ingredients and a sustainable design ethos, Zenith Surfaces truly is a decorative material with purpose.

### Heat Resistant

High heat resistance mean Zenith Surfaces is ideal for internal applications like benchtops, splashbacks and higher heat areas.

### Scratch Resistant

Unlike its natural counterparts, Zenith Surfaces contains impressive scratch resistant properties, perfect for whatever life can throw at it.

### 25 Year Warranty

Covered by our ten year warranty, you can rest assured that your Zenith Surfaces product will remain beautiful for many years to come.

# 25 Year Peace of Mind Warranty

Unlike natural marble, Zenith Surfaces does not require sealing or regular maintenance, making it a practical, durable and affordable solution for your home or project. Zenith Surfaces is not indestructible, but it is tough - with high durability against heat, scratching, chips and stains all Zenith Surfaces products come with our 25 year peace of mind warranty.

# Care & Maintenance

## Receiving your complimentary cleaning and care kit

Zenith Surfaces requires minimal maintenance to keep your surface looking as good as new. When you register your Zenith Surfaces product within 30 days, you will receive your complimentary cleaning and care kit. Using the contents contained within on a regular basis will help ensure the long lasting life of your Zenith Surfaces product.

# How to care for your benchtop

Everyday polished and matte bench-top cleaning requires no more than soapy water and a clean microfiber cloth.

To manage those stubborn marks or spills on polished bench-tops, do the following:

1. With the contents of your care and maintenance box, wet and wash your microfiber cloth, ensuring it is clean and free of any debris.
2. Place a small, twenty cent piece size drop of cream cleanser on your benchtop and wipe in small circular motions with your microfiber cloth and create a lather.
3. Avoid heavy rubbing in the same area to prevent any etch or scuff marks appearing.
4. Once the area is clean, wipe excess cleanser away with a wet and clean microfiber cloth or paper towel.

## Cleaning your Zenith Surfaces matte or textured surfaces

1. Clean using a non-scratch scouring pad and your included cream cleanser
2. Wipe in a circular motion, avoiding any excess pressure.
3. Wipe dry with a clean microfiber cloth.

## General tips for using your Zenith Surfaces bench-tops

1. Always use a chopping board when chopping food to avoid any unwanted scratches.
2. If your pots and pans are too hot to touch, they are too hot for your bench-top. Always use heat trivets or chopping boards to place any hot items directly on your bench-top surface.

Clean & damp Microfiber cloth

Wet the area to be cleaned

Apply 20c size drop of cleanser

Wipe in gentle circular motions

Wipe away any excess cleanser
